## 12-week Online Mastercourse in the Clinical Management of Diabetes

Created for healthcare professionals who work in primary and secondary care, our Mastercourse will allow you to focus on clinically relevant areas of diabetes that will help develop the management of patients with the condition.

The course is delivered by eminent national and international experts in diabetes.

**Prof. Steve Davies**, Consultant Endocrinologist

**Dr Atul Kalhan**, Consultant in Diabetes & Endocrinology

### Why choose to study with us?

- ▶ Online flexible learning allows you to study when it suits you.
- ▶ 12 week part-time course to fast track your diabetes knowledge.
- ▶ High quality education.
- ▶ Respected faculty with expertise in diabetes.
- ▶ Innovative educational delivery.

Over 1000 students have undertaken a postgraduate programme with us.

Our team are experienced in delivering online learning through the following methods:

- ▶ Real life case problems
- ▶ Discussion forums
- ▶ Individual learning portfolios
- ▶ Short answer assessment
- ▶ Case based examination

### Accreditation:

Endorsed by Diabetes UK Cymru.

### Our Credentials:

Learna, through our education platforms Diploma MSc and StudyPRN, is an award winning provider of online learning.

# Welcome message from Prof Steve Davies

"Learna have developed this innovative Mastercourse in diabetes that offers busy clinicians a cost and time effective way of upskilling in diabetes practice without committing to a more intensive diploma." Prof. Davies.

We are glad to partner with national leaders in diabetes in delivering a Mastercourse for doctors and other health professionals wanting to upskill their knowledge of this important chronic health condition that has wide ranging implications across all specialties.

As a faculty, we have considerable experience in treating diabetes and in delivering quality educational programmes. Our courses have been recognised in the UK and internationally by the prestigious **e-learning awards**, and by **The International Diabetes Federation**.

Our aim is to use this expertise to deliver an enjoyable and practical programme to accommodate the busy clinician, who can importantly incorporate this new knowledge into their clinical practice with the objective of improving overall care.

Prof. Steve Davies  
Director of Courses and Consultant Endocrinologist  
UHW and USW  
Cardiff  
UK

Built on the success of our Postgraduate Diploma and MSc Diabetes Courses, we have been approached by many healthcare professionals interested in a condensed course. In response to this demand, we are pleased to announce a 12 week Mastercourse to provide knowledge and skills in diabetes, which may also be a footing for further education.

In 2016, the World Health Organisation (WHO) Global report on diabetes estimated that 422 million people had known diabetes in 2014. With improved understanding of the pathophysiology of the condition and the rapidly emerging therapies, there is no better time to improve your knowledge and clinical skills to tackle this pandemic.

Our objective of the Mastercourse is to help you develop your clinical skills in this rapidly evolving disease area. The course is delivered as a structured 12-week online programme, completed with a final online exam.

# About the Course

**Dr. Atul Kalhan**

# About Us

Learna, through our two educational platforms **Diploma MSc** and **StudyPRN**, is an award winning provider of online learning. Based at Ty Bevan House, Cardiff UK, we have been delivering high-quality flexible medical education to healthcare professionals since 2010, promoting lifelong learning and personal development. Since 2010, over 1000 students have progressed their medical career by enrolling in one of our courses.

Utilising this expertise and working with national and international opinion leaders, the **12-week Mastercourse** offers busy clinicians a cost and time effective way of upskilling in the clinical management of diabetes without committing to a more intensive Postgraduate Diploma or MSc.

Be warned though, our students find our style of learning addictive and once exposed, many choose to progress to other courses including the Postgraduate Diploma and MSc programmes.

**The objectives of the Mastercourse are to help you:**

- ▶ enhance your understanding regarding current concepts in pathophysiology and management of this chronic condition.
- ▶ to improve your concepts regarding evidence based strategies and make you familiar with internationally accepted guidelines.
- ▶ with knowledge regarding available therapeutic options tailored to individual patient needs.

## Learning with Us

Established in 2010, we have facilitated online learning for over 1000 healthcare professionals. We ourselves have learned a lot during this time and continually seek to improve the student learning experience. Here is what some of our previous students have said:

"I found the online learning very interesting. It enabled me to save money and time."

**Dr Imad Eddin Rahamtalla**

"I strongly recommend Diploma MSc to all those busy physicians who are working in remote areas and wish to upgrade their knowledge."

**Dr Junaid Zaffar, Diabetologist.**

"The learning was fun and enjoyable. The course was awesome and it increased my confidence."

**Dr Sankar Nath Jha, Assistant Professor**

"I found learning with Diploma MSc interesting, it helped to update my academic knowledge"

**Dr Prasanth Kinattapurayil**

# What do our students think?

**Diploma MSc**
